

## Material list

### The following abbreviations are used:

PrW = production waste  
PcW = post consumer waste  
NT = off-grade quality  
Vir = virgin material

AR = aramid  
CF = carbon fibre  
GF = glass fibre  
GK = glass bead  
MF = mineral  
TV = talcum

FR = flame retardant (V0,V1,V2)  
HH = heat stabilized  
HI = high impact  
UV = UV stabilized  
EL = electrically conductive  
AS = anti static

Materials from the inventory of our suppliers, these are purchased or retrieved upon request (Subject to errors and prior sale).

All loading weights and packaging EXW our suppliers.

The indicated quantity is an indication. Exactly weight followed after delivery / pickup.

The trade names are registered trademarks of the manufacturer.

For all our sales, our general standard terms and conditions of sale and delivery are excluding apply, which you can view at any time by [www.tabar-plast.de](http://www.tabar-plast.de)
